How To Have Tablets for Eyes' Better Health & Strength?

MANUAL

Experts say it is significant to have eye tablets correctly to get effective results, but how do you know whether you are taking them correctly or not. Eye tablets help treat and manage the conditions like dryness, fatigue, itching, infections, and allergies. Eye tablets also help strengthen the eye muscles and increase blood flow. And the great news is that there are ways to have eye tablets properly for efficient results. It is essential to have the eye tablets as directed and properly for a better and more effective outcome.

What is Required?

To have the eye tablets properly, other than the eye tablets there is a need for the following:

Soap or
hand sanitizer

Water to clean
and wash your hands

A Clean Glass of Drinking
Water for having tablets

Useful Step-by-Step Instructions

There are step-by-step instructions given below for having the natural tablets for the well-being of the eyes:

Step by Step Instruction

Collect all the supplies, such as eye tablets' bottle, and others.

Now, clean and wash your hands with water and soap and dry them with a towel or paper towel. Hand sanitizer may also be used if the soap is not available.

Remove the cap from the bottle and put it aside on the clean surface.

Take 1-2 tablets at night before sleep with water or as directed by the physician or pharmacist.

Keep your time and number fixed for having tablets daily.

Swallow the natural eye tablet as a whole and do not crush, chew or break it. **(OR IT MAY BE TAKEN IN CRUSHED FORM – PLEASE CHECK THIS OR REMOVE THIS LINE)**

Tight seal the tablets' bottle properly after use.

Safety Advice

Store it in a cool and dry place and away from the direct sunlight.

Keep out of the reach of children.

Pregnant and Breastfeeding women should consult the health care provider before using this product.

What If You Forget to Take ProScreen Eye Tablet?

If you miss or forget the dose, then have it as soon as possible. However, if it is around time for the next dose, it is suggested to skip the missed dose and move back to the daily schedule. Please avoid doubling the dose.

Do's

- ✓ Always check and consider the expiration date on the label or ask your pharmacist about it so that you may be aware of how long eye tablets may be used after opening the tablets' bottle.
- ✓ It is essential to have the tablets during the fixed time daily.

Mistakes to Avoid

- ✗ Avoid touching the tablets and bottle with unclean hands.

Consult Your Doctor

To make your eye tablets work well and properly, follow the step-by-step instructions and directions from your pharmacist or doctor. These steps would make you use your eye tablets properly, easily, and safely. If you have any queries about having your eye tablets, consult your pharmacist or doctor.
